NOTES

- ♦ Due to the large numbers of android devices available, we are not able to test on all models. If your model is on neither the approved devices list nor the incompatible devices list, it most likely hasn't been fully tested.
- ♦ *Android devices must be running ice cream sandwich (4.0) or newer.
- ♦ *Apple devices must be running ios 7 or newer.
- ♦ ONYX works on most other Android devices, however, adequate testing has not yet been performed to certify them "approved".

(far left) List of Devices with Proven ONYX™ Compatibility – This is a non-comprehensive list. If a certain device does not appear here, it doesn't mean that it is incompatible, but we have not fully tested that particular device.

(left) List of Devices that are Incompatible or have known issues. This list was generated from tested devices that produced less than satisfactory results or are fully incompatible. Reasons: 1 – Phone camera does not meet minimum requirements, 2 – Phone does not support minimum OS, 3 – Macro mode not enabled on device
